GDR DELIVERIES TO ROMANIA UNDER THE  
1952 TRADE AND PAYMENTS AGREEMENT

## Article 2

GDR and Rumanian deliveries pursuant to Article 1 of this agreement are to be made on the basis of contracts to be concluded between the authorized GDR foreign trade organizations and the Rumanian state import and export companies. The contracts, all of which must be concluded by 31 March 1952, will become effective after they are signed by authorized persons of the GDR and Rumanian foreign trade organizations.

### Article 3

Commodities are to be delivered according to the general terms governing deliveries of goods between the GDR and Rumania. These terms are made an integral part of this agreement.

### Article 4

Prices for the commodities to be delivered under this agreement are to be determined on the basis of world market prices prevailing at the time the individual contracts are concluded.

50X1-HUM

The prices are to be FOB railroad freight car GDR-Czech border for GDR shipments and FOB railroad freight car Rumanian-Hungarian border for Rumanian shipments.

Shipments by sea are to be made according to the contract terms FOB the seaport fixed in the contract.

Article 9

The agreement is effective for the period 1 January - 31 December 1952.

50X1-HUM

List of Goods to Be Delivered by the GDR to Rumania  
During 1952

| <u>Commodity</u>                              | <u>Quantity</u> | <u>Value</u><br><u>(rubles)</u> |
|---|-----------------|---------------------------------|
| Machine-building industry                     |                 |                                 |
| Power machine building                        |                 | 170,000                         |
| Spare parts for engines                       |                 | 20,000                          |
| Carburetor engines                            |                 | 100,000                         |
| Coal-burning steam engines                    |                 | 50,000                          |
| Machine tools, forging and pressing equipment |                 | 12,000,000                      |

Including:

|  |    |
|--|----|
| Lathes up to 250 [possibly 25; ] mm cutting diameter | 17 |
| Lathes over 500 mm cutting diameter                  | 17 |
| Multiple-cutter lathes                               | 1  |
| Backing-off lathes                                   | 16 |
| Facing lathes  | 2  |
| Vertical lathes up to 1,600 mm cutting diameter      | 6  |
| Vertical lathes over 1,600 mm cutting diameter       | 3  |
| Other lathes   | 2  |
| Turret lathes  | 9  |
| Other automatic lathes                               | 2  |
| Horizontal milling machines up to 1,000 mm           | 5  |
| Universal milling machines up to 1,000 mm            | 5  |
| Thread-milling machines                              | 4  |
| Universal milling machines over 1,000 mm             | 1  |
| Duplicating milling machines                         | 1  |
| Other milling machines                               | 6  |
| Gear-tooth slotting machines                         | 3  |
| Generating milling cutter over modulus 5             | 1  |
| Jig drilling machines                                | 7  |
| Precision drilling machines                          | 7  |
| Boring and milling machines up to 100 mm             | 1  |
| Boring and milling machines over 100 mm              | 3  |
